Check Your Registration Status in SAM

You can quickly check your registration status in SAM by entering your DUNS number above. The SAM Status Tracker will show you the current status of that DUNS number, as well as tell you what steps you have left to complete based on why you are registering.

The SAM Status Tracker uses seven circles to represent the registration process: Core Data, Assertions, Reps & Certs, POCs, Submit, Processing, and Active. Visual indicators in the circles, text underneath the circles, a status message in bold above the circles and user messaging combine to give the registration status.

You will only see results for publicly searchable registration records. Federal government users must log into SAM to search for non-public records.
