By improving education over violence, it will result in less violent activities by children being educated on the effects of violence and the impact it has on others.

CaseISM.com

In South Africa the majority of families live in poverty due to the fact that people are not being educated. People that lack education are more likely to result in violent activities.

CaseISM.com

South Africa has an unemployment rate of 24% mainly due to the high amount of teens that drop out before they complete high school. When teens drop out of school they are more likely to result in violent activity.
